BERLIN AIRLIFT

MILK...new weapon of Democracy!

Supplied by air transport alone, 2½ million Berliners sample a new way of life

• In today's diplomatic Battle for Berlin, hope for democracy is being kept alive for millions in Western Europe by the U. S. Air Force.

Flying Douglas aircraft almost exclusively, Yankee crews have poured over half a million tons of supplies into Berlin since last June. This impressive feat has strained to the limit our resources in air transport. It has shown why cargo planes in sufficient numbers must be considered essential to any modern military defense program.

Needed—and desperately—are larger, faster types of aircraft designed exclusively for air transport. And to meet this need, Douglas is now building the giant Douglas DC-6A. Able to fly 30,000 lb. loads at 300 mph, the DC-6A will make available to the military services a cargo transport of rugged dependability, capable of supplying world-wide bases in any kind of national emergency.
